

RICOH ORTHODONTIC APPLIANCES

NEW LASER WELDING!!!

ADVANTAGES OF LASER WELDING:

No Solder used. More Hygienic, less toxicity

96% Alloy Retention

Welding is done with little or no heat transfer providing consistent advantages and increasing the versatility of the technology.

Accuracy of fit is significantly higher than with conventional soldering techniques.

Very small weld joints, reduces bulkiness of appliances

Strongest form of welding, 260% stronger than soldering

More precise fit likely when laser welding.

- **NO Extra Charge for Laser Welding**

**NOW AVAILABLE AT
RICOH ORTHODONTIC
APPLIANCES**
